

# Company Presentation

 Pro Labels

---

Taking our company  
to the next level

Our mission is to be the top converter for labels and printing needs

---

We aim to provide our customers with a top-rate quality experience

# About Us

**We are one stop integrated manufacturer of self adhesive labels**

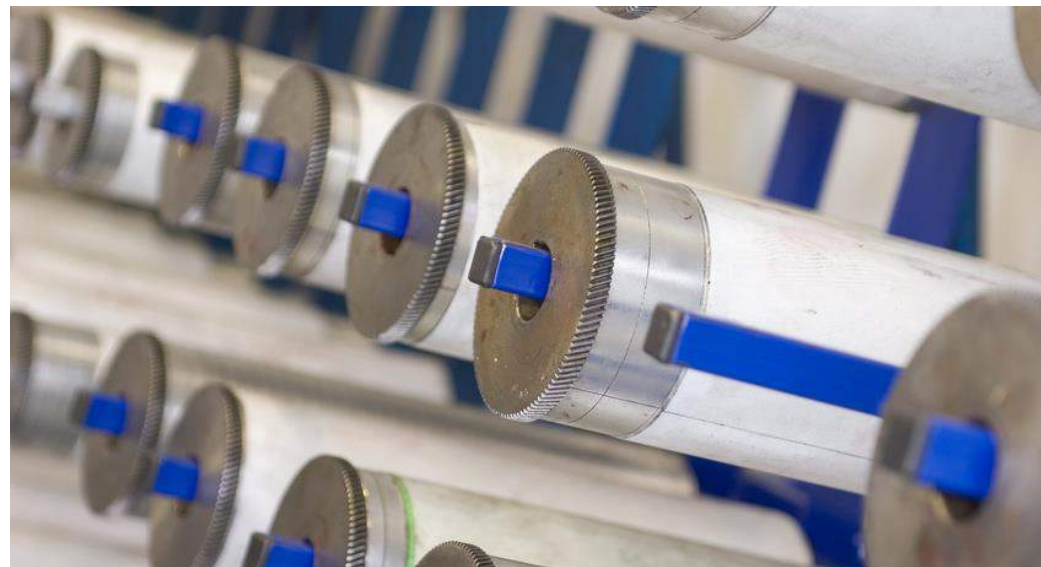

We started this journey about a decade ago, with prime objective as value addition. We create significant positioning and value for your leading brand, owing to our continuous R&D and innovation solutions. Our aim is to take the industry to more sustainable and eco friendly path.

# Our Technology

- We use 8 – color Gallus Flexo Printing Press for the jobs
- We can also do 8 – color central impression letter press for laminates with online foil station.
- To maintain the quality, inspection is done by a BST Defect Detection System.
- We give options of online as well as offline foil stamping facility.
- Host of other quality tests as GSM test, Scuff test, Tape test, Dyne test.

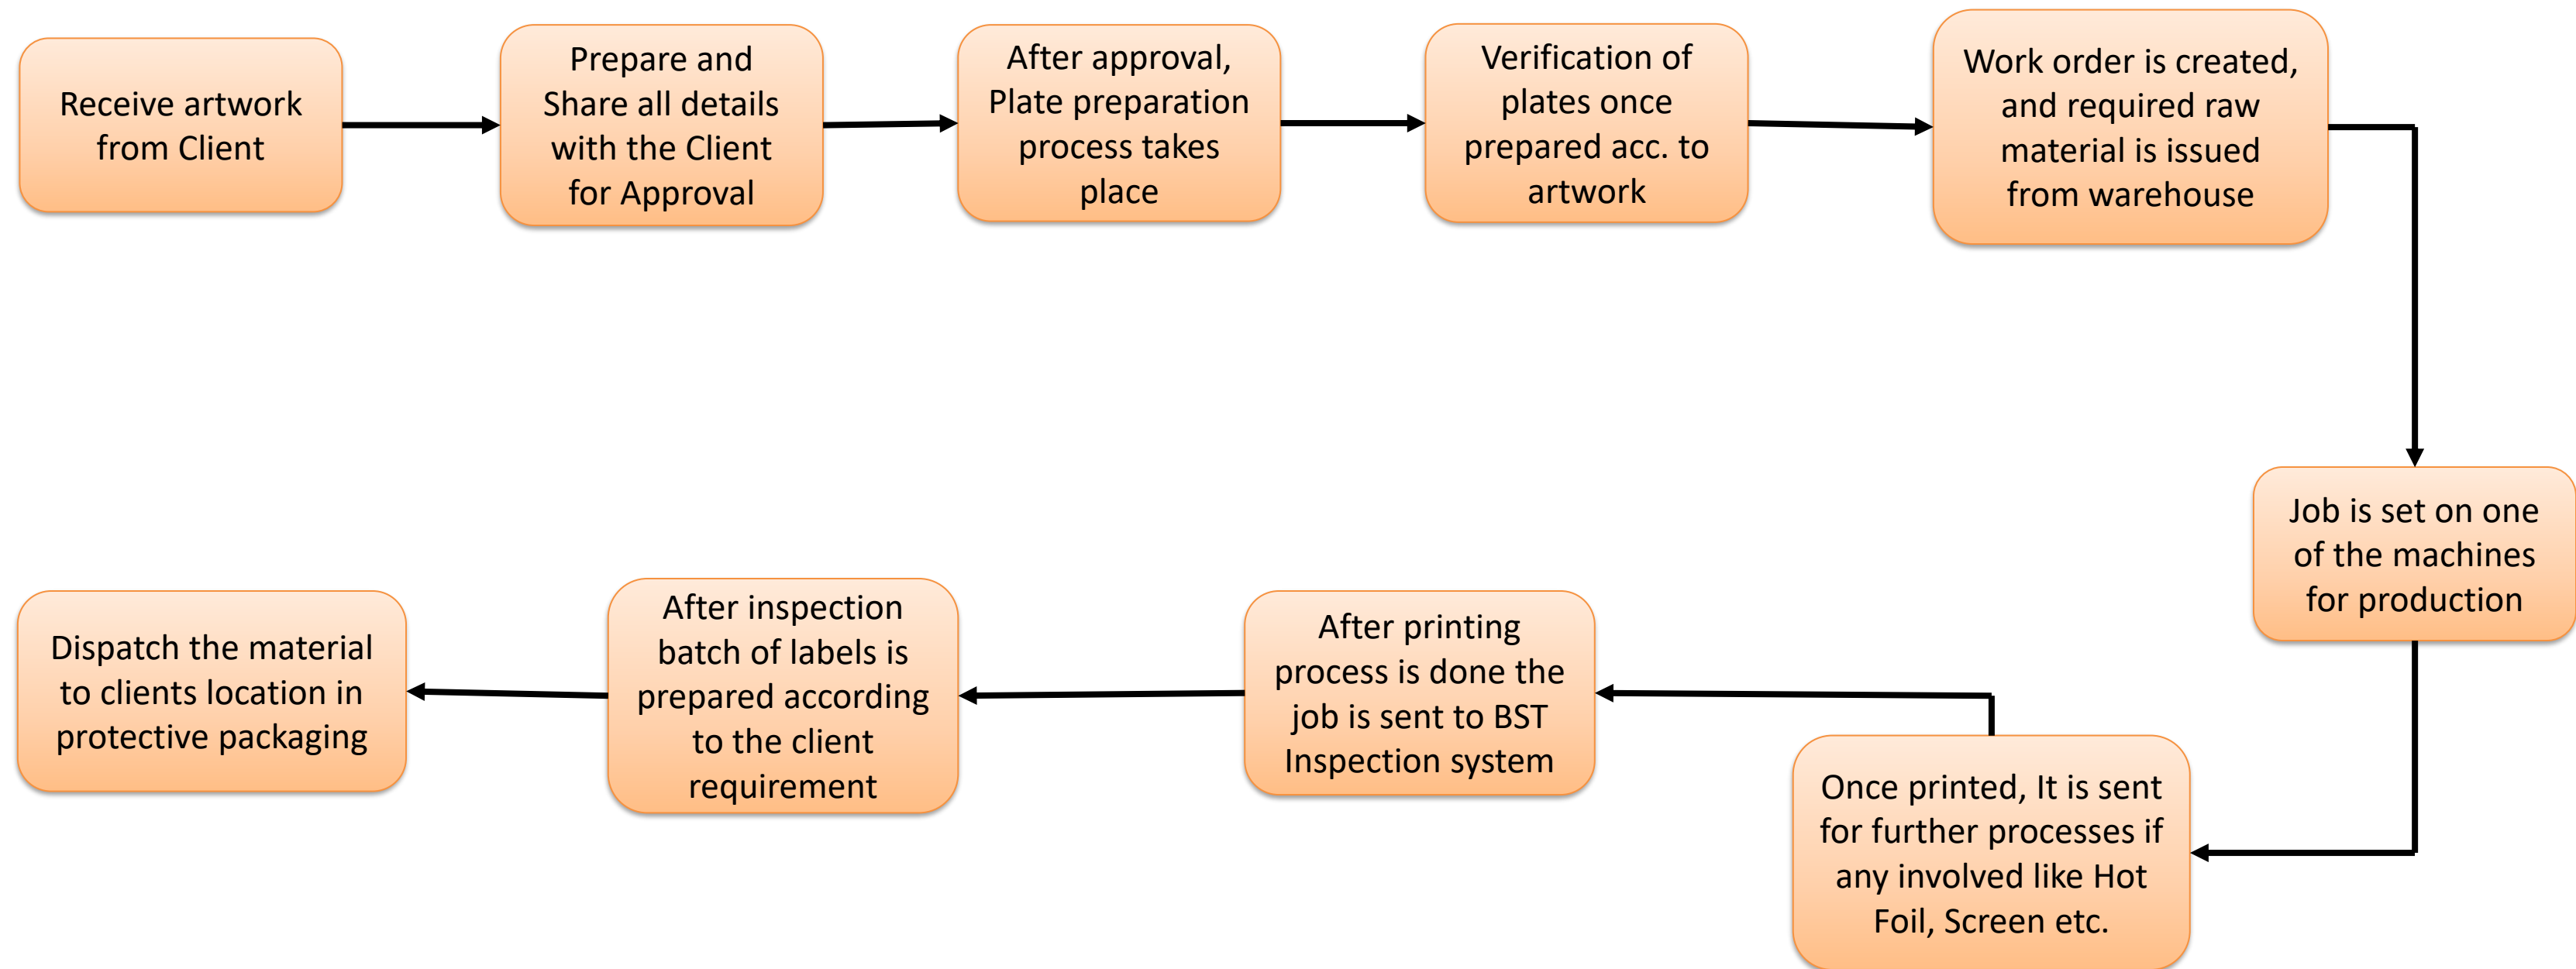

## Our Machines

Our system and infrastructure and choice of equipment is of Global Standards, oriented to suit requirements and address sensitivity of customers concerns

# Workflow
